

SLIDING DOOR DUPLEX

ST.1007.DU

Premium Edition

DUPLEX ST.1007.DU

Premium Edition

The Duplex system was developed to carry particularly large and heavy door leaves. The distinctively designed railing cart guarantees an even load distribution onto all bearing surfaces, so that sliding door systems with door leaves weighing up to 250 kg can be installed without any problems.

Technical details:

Overview:

- + System specially designed for large and heavy door leaves
- + Runs smoothly thanks to rail of solid material
- + Suitable for glass, wood, metal or plastic door leaves
- + Ideal stability for public areas due to large point holders
- + Available with MWE soft stop technology
- + Door leaf weight up to 250 kg

Technical highlights from Duplex sliding doors with top rollers

ADJUSTABLE
LIFT-OUT

UNIQUE JOINT BEARING SUPPORTS THE
DOUBLE ROLLER IN VERY HEAVY DOORS

HEIGHT ADJUSTMENT
BY LONG HOLE

RAILS MADE OF SOLID STAINLESS STEEL

- + Virtually silent running, solid material does not generate resonances
- + High load capacity of the entire construction
(e.g. for partition walls, glass cabins, skylights)

ADJUSTABLE LIFT-OUT

- + Perfect runnability guaranteed - by the construction as a rolling body
- + Perfectly adjustable by eccentric bore
- + Very high stability due to the basic structure made of stainless steel

plastic roller

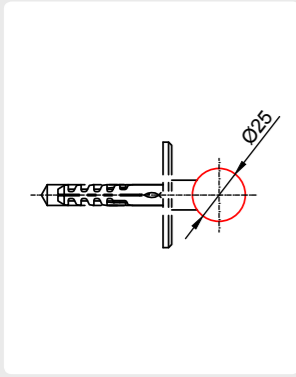

eccentric bore

ST.2000

Round Rail Ø 25 mm

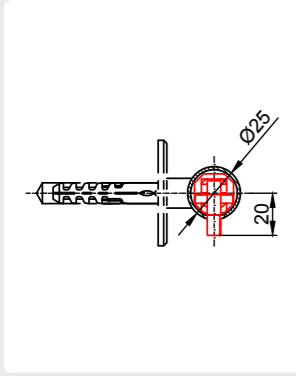

Ø 50 mm wall rosette

for sliding systems: ProTec, Klassik, Supra, Twin, Duplex, Duplex S, Vario, Spider and Chronos – incl. Drilling

ST.3600

MWE-Soft-Stop for Round Rail Ø 25 mm

for sliding door systems: ProTec, Klassik, Supra, Duplex, Duplex S, Twin, Spider and Chronos

Wall Mount for Round Rail
