Gate Closers

Access Control

Gate Hardware

## Dear customer

First of all, thank you for your business. We look back on a remarkable year: we launched several innovations, had our first RoadShow Van tour, came close to a 100% delivery reliability and received two prestigious awards. On top of all that, we laid the first brick of our brand new Smart Factory of the Future, "Locinox 4.0".

All these milestones are fuel for motivation to continue striving for better. Innovation is in our DNA and once again our R&D team developed many new products. Durable, reliable, smart and user friendly solutions contributing to a safer society.

These new products - easier to install and with even more options for access control - will open your gates to new business. We will continue to innovate in 2022 and beyond, and have many more surprises on the way.

We don't want you to miss out on our newest concepts and solutions. This catalogue is an updated guideline to our products and we would like to remind you that our team is there for you every step of the way.

With the utmost respect to your health and safety, we offer several other ways for you to engage with your account manager and discover our innovations. Whether it's a meet at headquarters – ours or yours, take your pick – or a visit from our RoadShow Van, we're eager to inform you about our recent developments.

On behalf of our entire team, we thank you for your continued support and look forward to more business.

Wishing you good health, and let's make it better together.

The Locinox Team

Gate Closers

Access Control

Gate Hardware

# Our products

## INNOVATION

A motivated team of engineers and prototypers work hard on a daily basis to further expand the Locinox range with new products.

You can find many, pioneering innovations in this catalogue.

## WEATHERPROOF

High quality materials and surface treatments ready for years of outdoor use are a basic requirement. This is why Locinox only uses stainless steel and non-ferro metals as raw materials for its products.

We choose chrome plating and, whenever possible, hot-dip galvanization as surface treatment to maintain high standards. This way, our products have a longer life cycle than cheaper alternatives.

## INDUSTRIAL QUALITY

Locinox products are of industrial quality. They are tested extensively by our R&D Department in the most extreme circumstances.

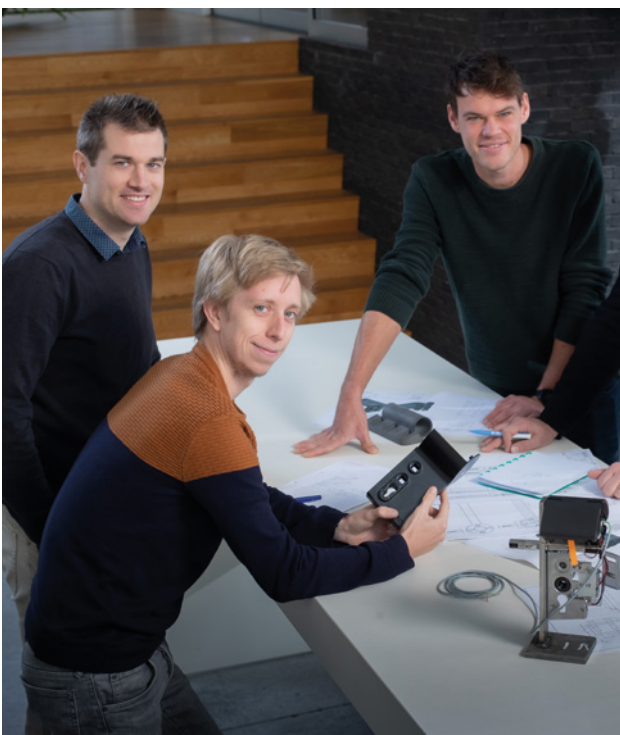

We test every product a minimum of 500,000 movements before bringing it to the market. Locinox products extend the life of your gates and fences!

## ROADSHOW VAN

Step into our ROADSHOW VAN and experience our complete range of outdoor access control solutions first-hand. Heavily relying on innovation, quality, durability and ease-of-installation, we are convinced our ROADSHOW VAN is a great opportunity to discover what Locinox is all about. For both professionals and end users.

The state-of-the-art mobile showroom will definitely impress at first sight, featuring a delicious blend of our latest innovations and classics. It will be on the road continuously. Make sure to take a look at the tour dates on our website - we are definitely coming your way soon.

## EASE OF INSTALLATION

"Time is money", you will most probably agree. This is why our products guarantee a lightning fast installation and very solid fixation

Thanks to the special tools, the patented Quick-Fix and the Plug & Play design - installation happens in a blink of an eye.

The pre-fitted Quick-Fix solution guarantees a lightning fast installation. This way, the products are mounted very firmly.

## 5 YEARS OF PREMIUM WARRANTY

Enjoy 5 years of worry-free use on all our mechanical products.

Go to [locinox.com/warranty](https://locinox.com/warranty) and activate your additional 2 years warranty to enjoy 5 years of peace of mind.

Because we care.

# Our promises

## MODULARITY

The products in our range are designed for maximum interchangeability. A multitude of combinations is possible to assure maximum flexibility according to your clients' needs.

Even after installation, our products can be easily adjusted and/or replaced.

## CUSTOM ASSEMBLY & PACKAGING

The modularity of our products allows you to choose from many different configurations. Locinox will assemble every possible configuration upon request.

Moreover, our well-organized logistics guarantee a shipment of our catalogue products within **24h after your order**. This will allow you to react quickly to your clients' needs!

## AT YOUR SERVICE!

Our sales team is easy to reach and will give you a prompt reply by phone or e-mail in no less than 7 supported languages.

They will supply you the correct product information and are happy to help you in choosing the right solution for the given situation.

Your orders are confirmed the same day!

## STOCK IS KING

We're proud of our 97% delivery reliability, which is worth testing! We have the stock to prove it.

Challenge us and order now.

## LOC E SHOP

order when it suits you

In a world where business never stops and where providing a fast service is crucial, Locinox is determined to stay ahead.

**Order any of our products 24/7 thanks to the Loc-eshop.**

### RHINO (p.23)

Aesthetical 180° gate closer with direct connection to the hinge

### B-SAFE (p.190)

Stainless steel safety cable for gates up to 500kg

# Our latest innovations

## **GUARDIMA**

The GUARDIMA is a strong child-safe magnetic lock ensuring safety, security and ease of entrance. If the gate wing is not completely closed already, a powerful magnet ensures a tight closing of the gate. The magnet only unlocks by pulling the knob up, while a unique patented internal leverage system guarantees a smooth opening.

The magnetic lock can be installed on gates that are not perfectly aligned or where the gate wing has started to sag over time. GUARDIMA can be used on wooden and metal gates.

Mechanically tested 2 million times for opening and closing, the GUARDIMA is a guaranteed strong and secure option to keep children inside kindergartens, parks or playgrounds or out of unsupervised swimming pool areas.

## **"Smart solutions, better fences"**

Protecting what matters. Everyone wants to be safe, right? At home, on their job, at school, out when sporting, etc... Locinox provides that degree of security and comfort. As a Belgium based trendsetter, manufacturer and reputed market leader, we take care of your peace of mind.

Thanks to continuous innovation, thorough quality checks and efficient installation methods, Locinox is the right partner for your gate and fencing projects. Every product is designed and engineered with eye for detail, extreme weatherproofness and added value. All to guarantee an improved durability and lots of modularity and flexibility. Our products are determined to be your partner for the long run and ensure your project to stand out, for a very long time.

With every innovation we're launching; quality, durability and user friendliness are key. We rely on the best components for the best possible solutions. Our test results don't lie - Locinox products stand the test of time!

# Gate closers

Hydraulic gate closers will transform any gate into a self-closing solution. Comfort, safety and peace of mind are guaranteed thanks to pure hydraulic power. High quality components ensure Locinox closers to be 100% weatherproof, maintenance-free and extremely durable. A constant and consistent functioning is guaranteed during an ice cold winter or a sweltering summer. The unique concept ensures an easy and efficient fixation thanks to the patented Quick-Fix system. Moreover, closing speed and final snap can be adjusted very precisely and 100% to your customers' wishes.

# CUTTING EDGE SELF-CLOSING TECHNOLOGY

## 1 A CONSISTENT CLOSING SPEED FROM FREEZING WINTER TO SIZZLING SUMMER

If your gate closes too slow, children or pets could sneak through. If your gate closes too fast, it might become a problem for wheelchair users. A loud slamming gate is not only annoying for you or your neighbours, it's also harmful for your gate.

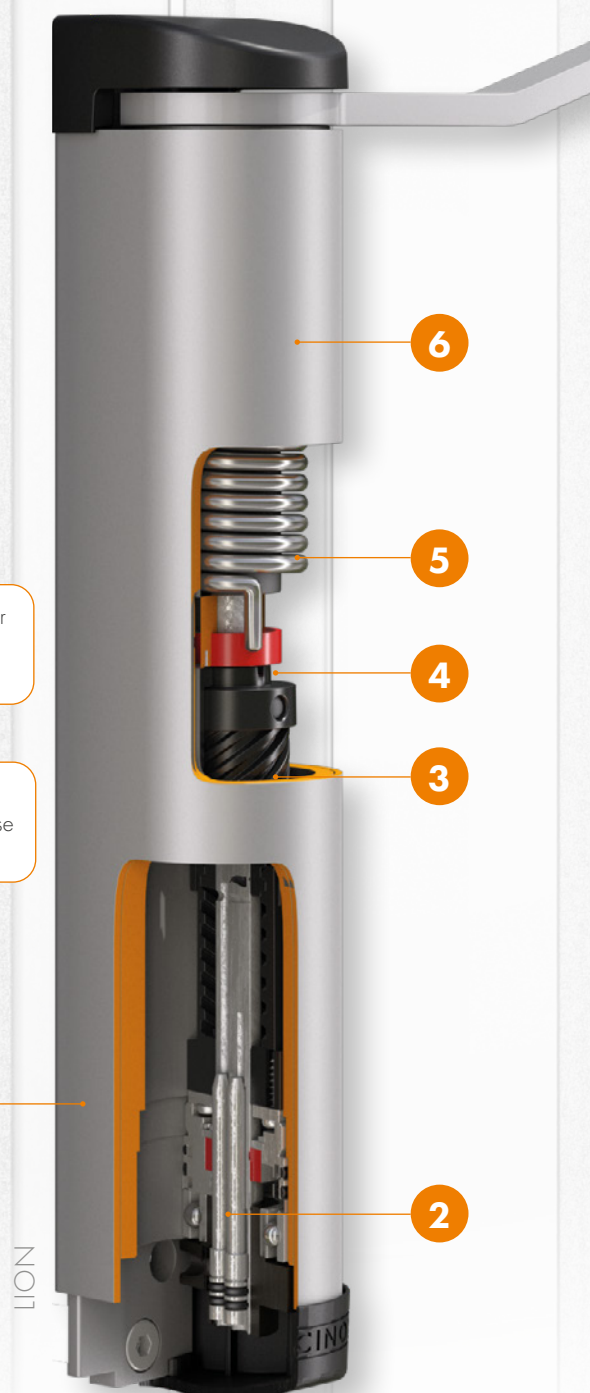

The Active Thermal System, our own cutting-edge development, guarantees a constant closing speed, regardless of the outside temperature.

## 2 ADJUST SPEED AND FINAL SNAP PRECISELY

Some customers prefer their gate to close slowly, while others want it to go a little faster. No problem! All of our hydraulic gate closers can easily be adjusted in a matter of seconds to the wishes of your customers.

The final snap allows the gate to speed up a little at the end: this way, you are reassured the gate is properly closed. The final snap can easily be adjusted to any need.

### 3 FUNCTIONS COMFORTABLY

The in-house developed High-Helix screws guarantee a consistent functionality and ensure a comfortable opening speed for the elderly or disabled.

### 4 DUST- & WATERPROOF

Our gate closers are equipped with rotary seals. These seals protect the gate closers from dirt and dust particles intruding the mechanism, assuring your customers of worry-free functioning for many years to come.

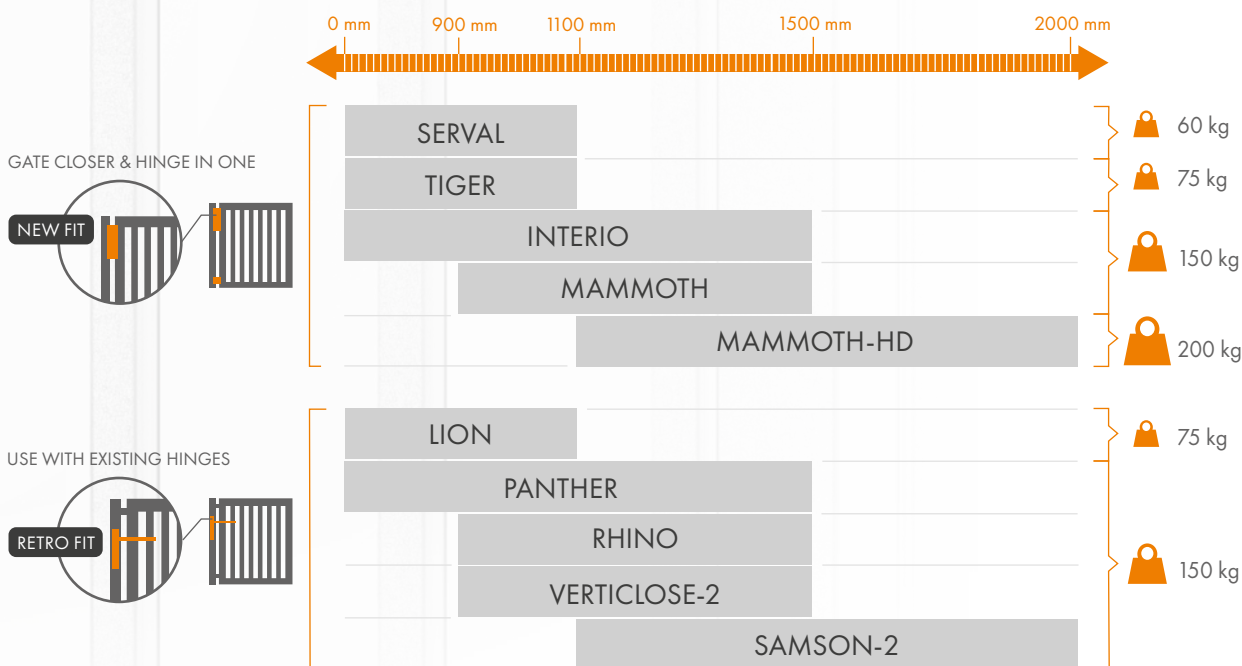

### 5 CLOSES EVERY TIME

The powerful torsion spring guarantees the necessary closing force. Therefore, your gate will always close: unaffected by strong winds, the width of your gate wing or the outside temperature. You can rest assured.

### 6 100% PROTECTED

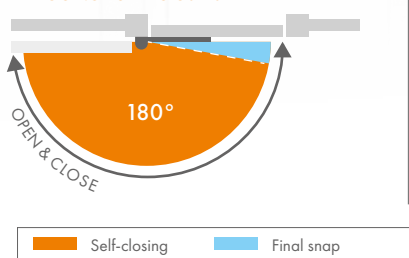

The aluminium anodized housing guarantees full protection against any weather conditions. The housing is windproof, frost-free and dust- & waterproof, allowing your gate closer to function perfectly.

## A GATE CLOSER FOR EVERY GATE

**NEW** 180° Spring hinge mounted with self-drilling screws

SERVAL

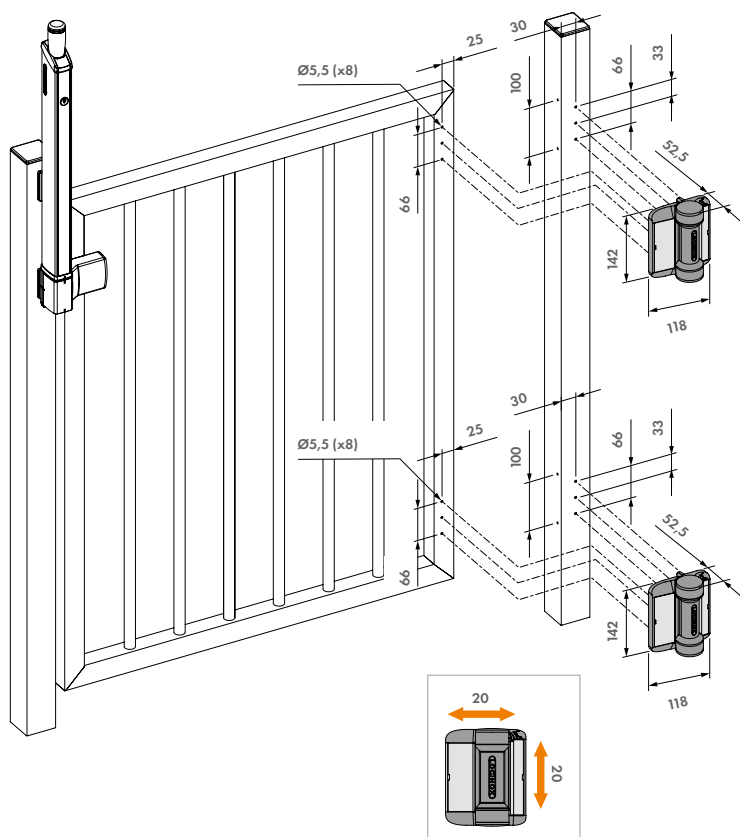

The Serval is a compact spring hinge with force adjustability. The glassfibre reinforced polyamide housing protects the high-tech internal components, allowing for a perfect functioning in all weather circumstances. Its 20 mm vertical and horizontal adjustability ensures an easy and flexible installation. Firmly fixed with self drilling screws - no welding required. Suitable for installation on square and round frames.

**Specifications**

- ✓ 180° spring hinge with force adjustability
- ✓ Fiberglass reinforced polyamide housing
- ✓ For left and right turning gates
- ✓ Fast and easy fixing with self drilling screws
- ✓ Force adjustability from 2 up to 7 Nm (at closed position)
- ✓ Easy to open: Max. 10 Nm
- ✓ 20 mm horizontal and vertical adjustability

## Compact hinge and gate closer in one

TIGER (Patented)

180° self-closing hydraulic hinge with precise adjustments on speed and final snap. The aluminium powder coated housing and unique high-tech components allow the Tiger to function perfectly in any weather situation. We highly recommend the Tigerdrill for an even more efficient installation. The Puma hinge is included.

### Color options

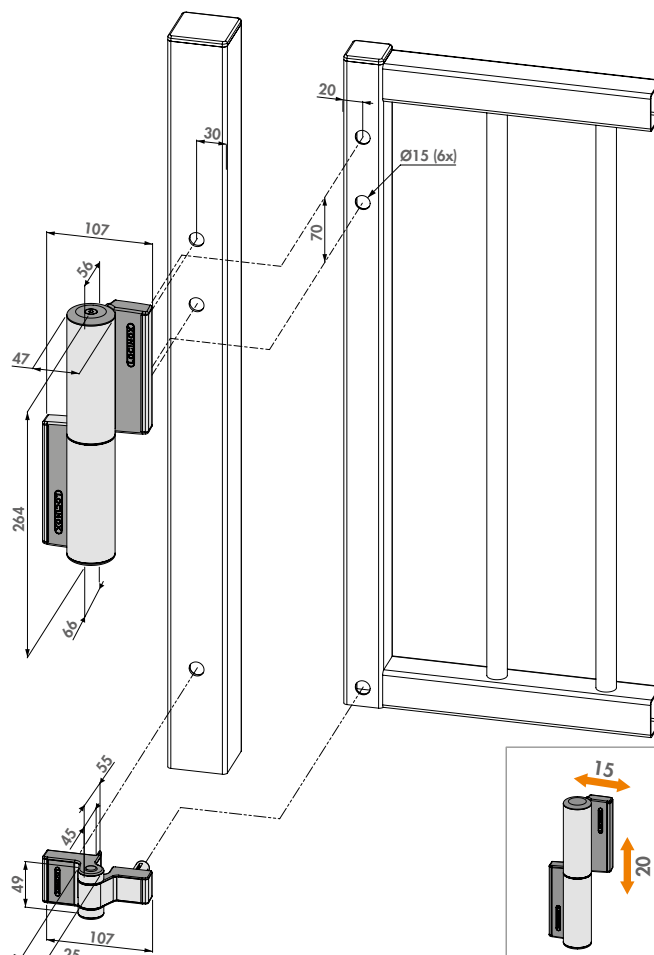

ZILV 9005

### Specifications

- ✓ Automatic 180° closure with adjustable closing speed and final snap
- ✓ Aesthetic design
- ✓ Powder coated aluminium housing
- ✓ Closing speed unaffected by humidity and temperature changes
- ✓ For left and right turning gates
- ✓ Fast and easy fixing with Quick-Fix
- ✓ 15 mm horizontal adjustability
- ✓ 20 mm vertical adjustability
- ✓ Easy to open: Max. 14 Nm

## Hydraulic 180° gate closer and hinge in one

MAMMOTH-180 (Patented)

Elegant and powerful self-closing hinge for 180° gate situations. Mammoth is perfectly fit for gates up to 150 kg and 1500 mm wide. It is equipped with a double bearing for exceptional functionality. The Active Thermal System guarantees a constant closing speed, unaffected by weather conditions. The Dino hinge is included.

### Color options

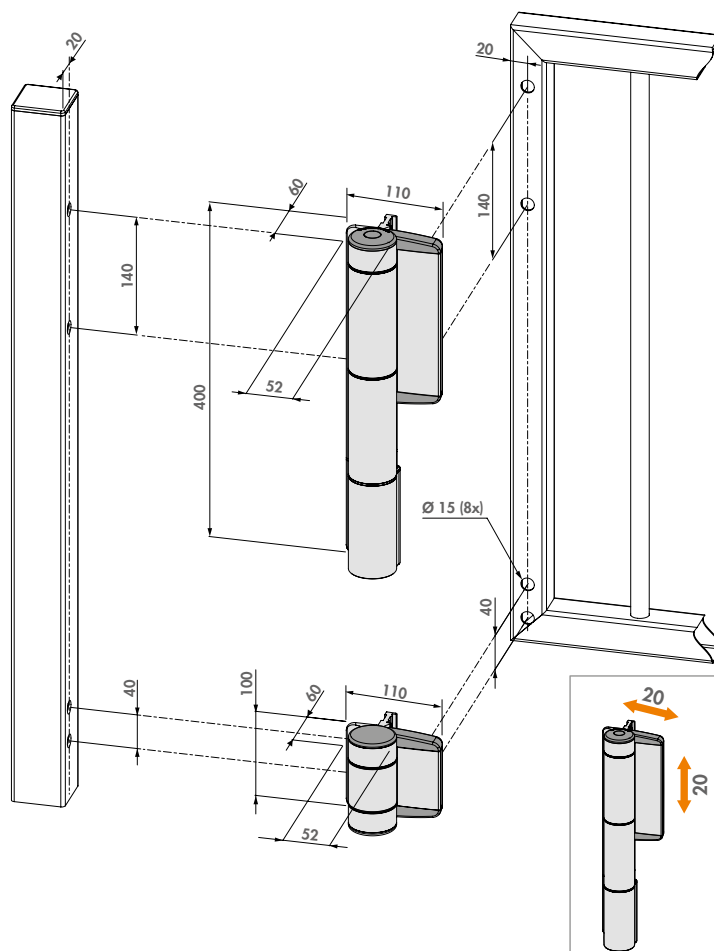

ZILV 9005

### Specifications

- ✓ Self-closing hinge with patented hydraulic damping
- ✓ Aesthetic design
- ✓ Powder coated aluminium housing
- ✓ Closing speed unaffected by temperature changes
- ✓ Easy to open: Max. 16 Nm
- ✓ Vandal-proof
- ✓ For left and right opening gates
- ✓ Easy mounting with Quick-Fix
- ✓ 2-dimensionally adjustable (2 x 20 mm)

### Order code

## NEW Strong, frost-free and watertight keypad

SLIMSTONE-X-

The durable and highly robust SlimStone-X keypad has been developed to work in combination with devices such as the SwitchStone-STD relay module. When both combined, the SlimStone-X ensures maximum security against burglary thanks to 2 external relays, both with a Common, Fail Open and Fail Close contact. The keypad is easy in installation and configuration, and is developed and tested for use in the most extreme weather conditions (IP68).

### Color options

ZILV 9005

### Specifications

- ✓ IP68 rated - Extremely resistant to water and dust
- ✓ Long range secure 2-wire communication with SwitchStone-STD, distance up to 300 m
- ✓ Auto back up functionality
- ✓ Secured against burglary thanks to external relay
- ✓ Energy efficient adjustable white led lights
- ✓ Highly resistant stainless steel push buttons tested for 1,000,000 pushes and more
- ✓ Easy programming of up to 400 user codes
- ✓ Frost-free thanks to smart heating
- ✓ Tested from -30 up to +85° Celsius
- ✓ Current: 520 mA (with heating)
- ✓ Consumption: 1,5 W (> 5°C) + 12 W at max heating (< -25°C)

**SLIMSTONE-X-** Strong, frost-free and watertight keypad

## NEW 2-channel relay module

SWITCHSTONE-STD-

The SwitchStone-STD relay module has been developed to work in combination with devices such as the SlimStone-X keypad. The SwitchStone-STD ensures maximum security thanks to 2 external relays, both with a Common, Fail Open and Fail Close contact. These relays are capable of switching voltages up to 250V AC/26V DC, allowing them to be used in a wide range of applications, including switching lighting. Free exit functionality can be easily implemented using the 2 inputs on the module.

### Specifications

- ✓ Includes 2 250V AC/26V DC relays, each with COM, Fail Open and Fail Close contact
- ✓ Long range secure 2-wire communication with the SlimStone-X, up to 300 m distance
- ✓ Auto back up functionality
- ✓ DIN-rail mountable
- ✓ Tested from -30 up to +85° Celsius
- ✓ Relay switching duration adjustable between pulse and timer mode (500 ms - 99 s)
- ✓ Voltage: 24 V DC
- ✓ Current: maximum 0.07 A
- ✓ Consumption: maximum 1.7 W

## Sturdy, frost-free and weather resistant keypad with 2 integrated relays

### SLIMSTONE-2-

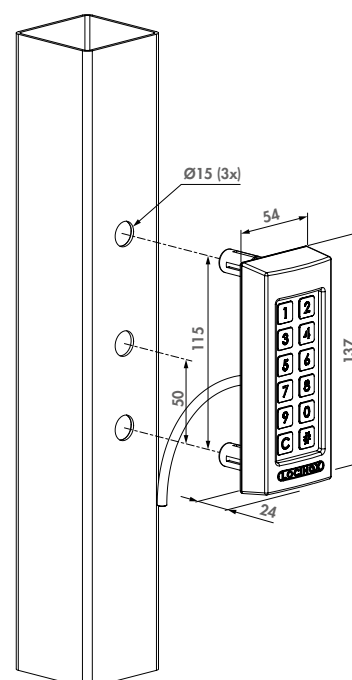

The new SlimStone-2 keypad contains two relays for an improved access control and advanced flexibility. It offers the possibility to command 2 different automation devices or to open the gate in 2 different ways. This keypad with integrated led lighting is unique thanks to its strength and extreme weather resistance (IP68). In all weather conditions, access control is guaranteed. Both integrated relays, with a Fail Open and Fail Close contact, allow an easy connection to Locinox and third-party automation products.

- ✓ Easy programming of up to 100 user codes
- ✓ Frost-free thanks to smart heating
- ✓ Time range adjustable between pulse and timer mode (100ms - 99s)
- ✓ Working voltage keypad from 10 up to 26 Volt AC/DC
- ✓ Current: 1.0 A (with heating)
- ✓ 2 integrated switching relays: 2 x NO - 2 x NC - 2 x COM (Max. 2A, 60W, 26V AC/DC)
- ✓ Consumption: 1,5 W (> 5°C) + 12 W at max heating (< -25°C)

# BUILT-IN MAGNETIC LOCKS

## A FULL CONCEPT FOR SWING GATES

### MAGUNIT

High quality insert magnetic lock with guaranteed holding force and long durability. 500h salt spray resistant.

### N-LINE-B-MAG

Aesthetic, adjustable and powder coated finishing profile for swing gates preventing people to stumble against protruding parts.

### 3006PULL

Elegant powder coated handle for easy opening and closing of the gate.

#### TIP

- Save time and order the all-in-one **N-LINE-B-MAG KIT**
- Make your gate self-closing with the powerful **VERTICLOSE-2** gate closer

Built-in magnetic lock

## B FULL CONCEPT FOR SLIDING GATES

### MAGUNIT

High quality insert magnetic lock with guaranteed holding force and long durability. 500h salt spray resistant.

### N-LINE-S-MAG

Aesthetic, adjustable and powder coated finishing profile for sliding gates preventing people to stumble against protruding parts.

### 3006PULL

Elegant powder coated handle for easy opening and closing of the gate.

#### TIP

- Add access control to your gate with the strong, frost-free and watertight **SLIMSTONE-2** keypad (IP68)

## Integrated magnet lock for swing gates

B-MAG-

Thanks to its assembly in the pole, this magnet lock can be installed invisibly and aesthetically, whilst maximal passage space is maintained. A quick assembly is done with Quick-Fix. It has a guaranteed tensile strength of 250 kg and resists to extreme weather conditions. The rubber bumpers prevent shaking of the gate, and damage to the gate and its accessories in case of harsh handling, and the flexible assembly of the armature plate guarantees a good closing even if the gate isn't perfectly aligned.

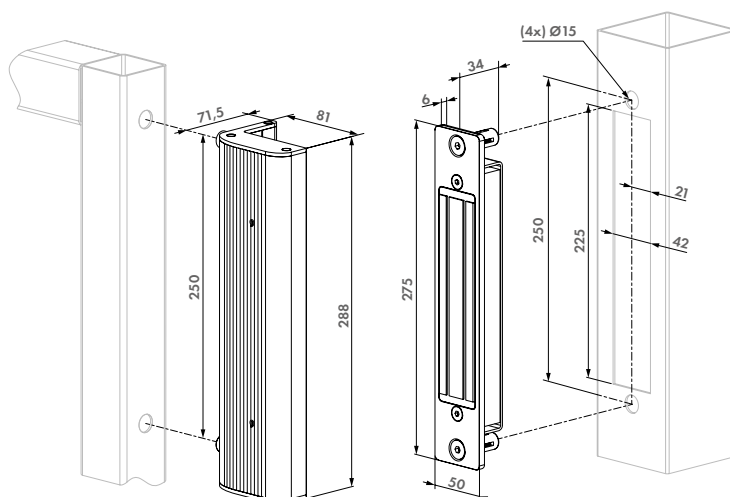

### Color options

ZILV 9005

### Specifications

- ✓ Guaranteed holding force tested on every magnetic lock
- ✓ Minimal pulling force: 2500N (250 kg)
- ✓ 500h salt spray resistant! SGS certified (ISO 9227)
- ✓ Special two-layer protective coating developed for outdoor use
- ✓ Anti-residual magnetism kick-off system
- ✓ Current: 460mA / 12V or 230mA / 24V

### Order code

## Set with magnet and anchor plate for N-LINE (B or S)-MAG profiles

MAGUNIT-2500

Set with a MAG and anchor plate along with fittings to combine with a N-LINE-B-MAG or N-LINE-S-MAG, 1 or more MAGUNITs can be mounted in the N-LINE profile.

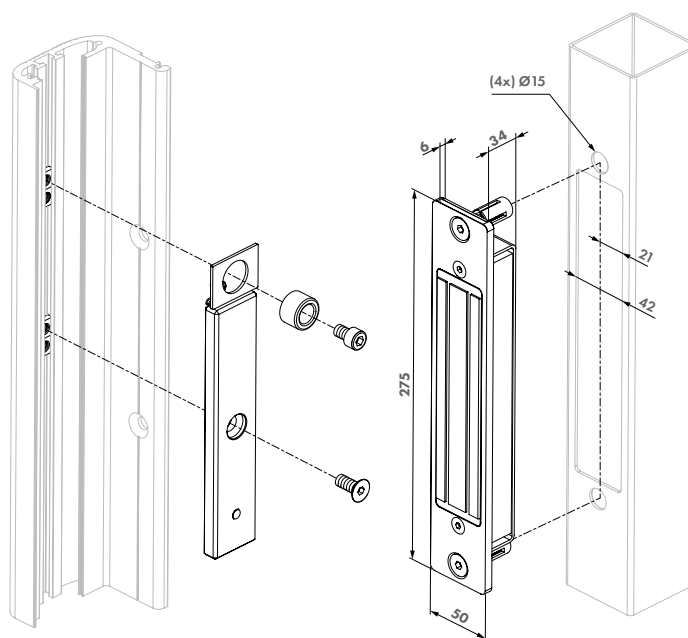

### Specifications

- ✓ Guaranteed holding force tested on every magnetic lock
- ✓ 500h salt spray resistant! SGS certified (ISO 9227)
- ✓ Special two-layer protective coating developed for outdoor use
- ✓ Anti-residual magnetism kick-off system
- ✓ Current: 460mA / 12V or 230mA / 24V
- ✓ Voltage: 12V / 24V DC
- ✓ Minimal pulling force: 2500N (250 kg)

## Integrated magnet lock for sliding gates

S-MAG-

S-MAG is the perfect product to lock any type of sliding gate. It has a guaranteed tensile strength of 250 kg and resists extreme weather conditions. In case of harsh handling, the rubber bumpers prevent shaking of the gate. This way, the gate itself and its accessories are protected. The flexible assembly of the armature plate guarantees a normal closing, even if the gate isn't perfectly aligned.

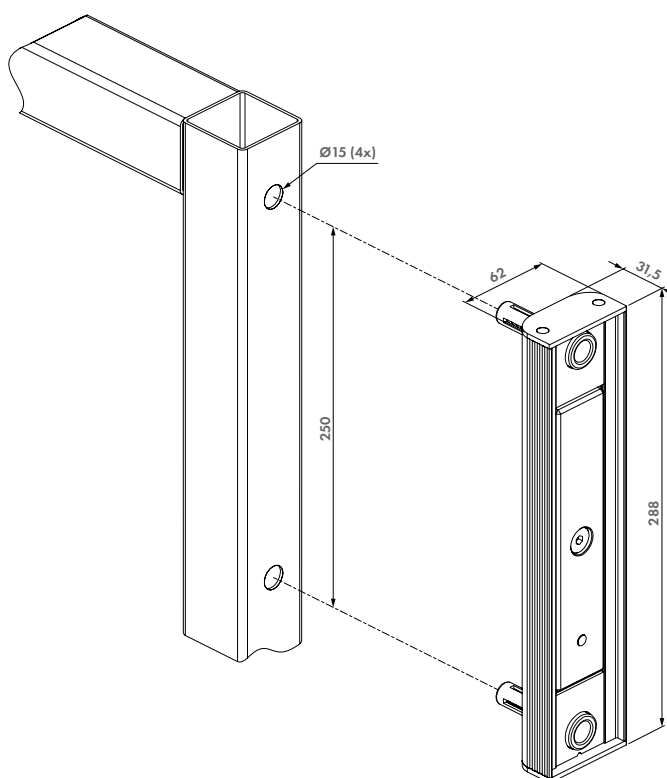

### Color options

ZILV 9005

### Specifications

- ✓ Guaranteed holding force tested on every magnetic lock
- ✓ 500h salt spray resistant! SGS certified (ISO 9227)

# SURFACE MOUNTED MAGNETIC LOCKS

## FULL CONCEPT FOR SWING GATES

### MAGMAG

High quality surface mounted magnetic lock with guaranteed holding force and long durability. 500h salt spray resistant

### N-LINE-MAG

Aesthetic, adjustable and powder coated finishing profile for swing gates preventing people to stumble against protruding parts

### 3006PULL

Elegant powder coated handle for easy opening and closing of the gate

#### TIP

- Save time and order the all-in-one **N-LINE-MAG-KIT**
- Add access control to your gate with the strong, frost-free and watertight **SLIMSTONE-2** keypad (IP68)
- Make your gate self-closing with the aesthetic **MAMMOTH** gate closer

Electromagnetic lock with handles

NEW

## Surface mounted magnetic lock with integrated handles

MAG-

Screw-on electromagnetic lock for access control. Available in 2 versions. MAG3000 with 300 kg and MAG6000 with 600 kg pulling force. The aluminium powder coated housing with integrated design handles gives your access control gate that extra touch. Stop losing precious time with welding boxes; drilling 7 holes does the job. The Quick-Fix enables a fast and strong fixing. A two layer, protective coating guarantees that our electromagnetic locks are ready for years of worry-free use outside.

### Color options

ZILV 9005

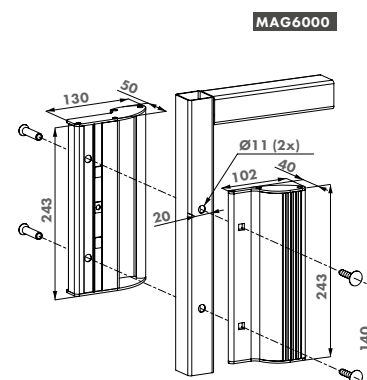

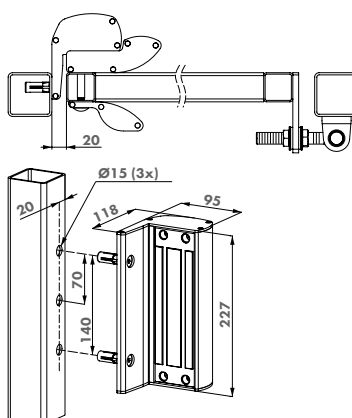

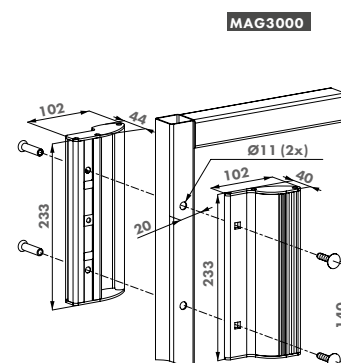

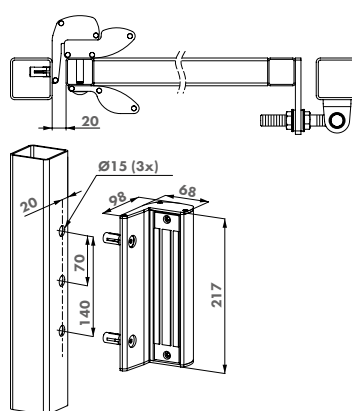

### Specifications

- ✓ 500h salt spray resistant! SGS certified (ISO 9227)
- ✓ Guaranteed holding force tested on every magnetic lock
- ✓ Fast and easy fixing by means of 5 holes with Quick-Fix
- ✓ Powder coated aluminium housing
- ✓ Anti-residual magnetism kick-off system
- ✓ Raised edge on the magnet housing makes it impossible to put a crowbar between the magnet and the armature plate
- ✓ Voltage: 12V / 24V DC
- ✓ Current MAG3000: 500 mA / 12 V or 250 mA / 24 V
- ✓ Current MAG6000: 460 mA / 12 V or 230 mA / 24 V

### Order codes

**MAG-3000** For square posts and gate profiles of 40 mm to 80 mm, 300 kg pulling force

**MAG-6000** For square posts and gate profiles of 40 mm to 80 mm, 600 kg pulling force

## Design LED-lighting for fences & gates

### TRICONE

Plug & Play design led lighting for your fences & gates. Gives your gate an aesthetical look with minimal power consumption! The Quick-Fix provides a fast and strong fixing on your fencing.

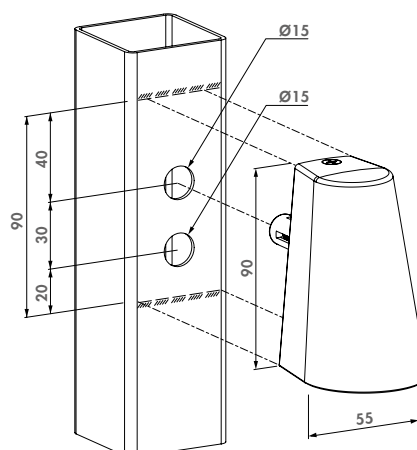

#### Color options

ZILV 9005

#### Specifications

- ✓ Easy mounting with Quick-Fix
- ✓ Aluminium housing with plastic (POM) cable guiding
- ✓ 3 white High-Flux led Lights
- ✓  $\pm 140^\circ$  beam angle
- ✓ Life expectancy: 50.000 hours
- ✓ 300 lux (illuminance)
- ✓ Power:  $\pm 1W$  (with 12V DC)
- ✓ 12V AC or DC (max. 18V DC or peak AC)
- ✓ Minimum power consumption and long lasting performance
- ✓ Resin encapsulated print circuit board for maximum weather resistance
- ✓ Power up to 20 Tricone with 1 Locinox AC transformer or up to 15 with the DC power
- ✓ IP54

## Guiding cable

DVK

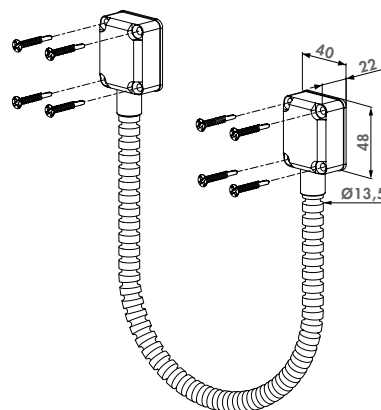

Stainless steel guiding cable to protect your electrical wires in an outside environment.

### Color options

ZILV

### Specifications

- ✓ Stainless steel guiding cable for electrical wire
- ✓ Length of the cable: 450 mm
- ✓ Supplied with 8 self tapping screws
- ✓ Inner diameter: Ø10 mm

### Recommended cable

### Order code

DVK Stainless steel guiding cable 450 mm

2005  
P. 45

## Reinforced, braided stainless steel guiding cable

DVK-HD

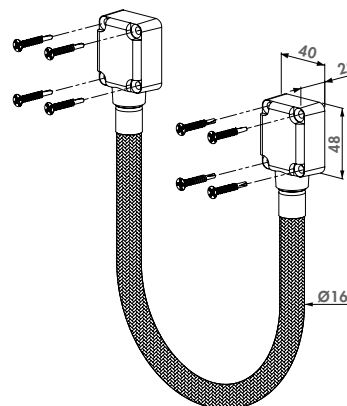

Aesthetic and durable solution for the guidance of electrical wiring. Protects your wiring against dirt, moist and vandalism in an outside environment. The cable wraps around and protects the cabling of your electrical gate hardware and avoids the risk of short circuiting.

### Color options

ZILV

### Specifications

- ✓ Vandal-proof, stainless steel, braided guiding cable
- ✓ Available with 450 or 650 mm braided cable
- ✓ Protects electrical wiring against vandalism, moist, dirt and vermin
- ✓ Strong fixation by means of 8 self-tapping stainless steel screws
- ✓ Cable entry: aluminium housing
- ✓ Inner diameter: Ø9 mm

### Recommended products

POWERSTONE-  
P. 46

### Order codes

**DVK-HD-450** Reinforced stainless steel guiding cable 450 mm

**DVK-HD-650** Reinforced stainless steel guiding cable 650 mm

## Electrical wire

2005

Electrical cable; very flexible and weatherproof.

### Specifications

- ✓ Length of the wire: 5 m
- ✓ 2 x 0,75 mm<sup>2</sup>
- ✓ Water resistant & weatherproof
- ✓ Tested at 500.000 bendings
- ✓ Kink resistant

### Order code

**2005** Electrical cable 5 m - 2 x 0,75 mm<sup>2</sup>

## Safety transformer 12V AC

AC-TRANS-12V-25W

Safety Transformer 12V AC

### Specifications

- ✓ Mounting on DIN-rail or directly
- ✓ Power: 25W
- ✓ Primary voltage: 230V AC - Secondary voltage 12V AC
- ✓ Aluminium housing
- ✓ Robust control module: encapsulated for superior humidity resistance

### Order code

**AC-TRANS-12V-25W** Transformer 12V AC - 25W

## NEW 60W power supply

### POWERSTONE-

High-quality 60W switching-mode power supply, specifically designed to power Locinox devices. Plug & Play installation guaranteed and integrated overload indicator.

#### Specifications

- ✓ Input: 110-240 VAC, 50-60Hz, 1.2A maximum
- ✓ Output: +24V DC, 2.5A maximum, 60W
- ✓ Resettable overload indicator
- ✓ Auxiliary 24V AC output available

#### Order code

**POWERSTONE-24V-60W** 60W power supply

## All-in one 12V DC Access Module with integrated timer

### DC-ACCESS-12V-20W

All-in-one, Plug & Play Access Module (220V AC input). Including power supply and integrated timer with easy to read display and easy to operate: time range (1 to 99s) of switched state controlled by push buttons. A 12V DC Fail Open or Fail Close device can be easily connected to the module.

#### Specifications

- ✓ Mounting on DIN-rail or directly
- ✓ Time range (1 to 99s) of switched state controlled by push buttons
- ✓ Set time clearly visible on display
- ✓ Robust control module: encapsulated for superior humidity resistance
- ✓ Input voltage: 220V AC / Maximum output power: 25W

#### Order code

**DC-ACCESS-12V-20W** All-in one 12V DC Access Module with integrated timer

## Safety power supply 12V and 13V DC

### DC-POWER-12V-20W

Safety power supply 12V / 13V DC - 20W

#### Specifications

- ✓ Mounting on DIN-rail or directly
- ✓ Power: 20W
- ✓ Primary voltage: 230V
- ✓ Secondary voltage: 12V AC
- ✓ Robust control module: encapsulated for superior humidity resistance

#### Order code

**DC-POWER-12V-20W** Power supply 12 V DC - 20 W

## Safety power supply 24V and 25V DC

### DC-POWER-24V-25W

Safety power supply 24V / 25V DC - 25W

#### Specifications

- ✓ Mounting on DIN-rail or directly
- ✓ Power: 25W
- ✓ Primary voltage: 230V
- ✓ Secondary voltage: 24V and 25V DC
- ✓ Robust control module: encapsulated for superior humidity resistance

#### Order code

**DC-POWER-24V-25W** Power supply 24-25V DC - 25W

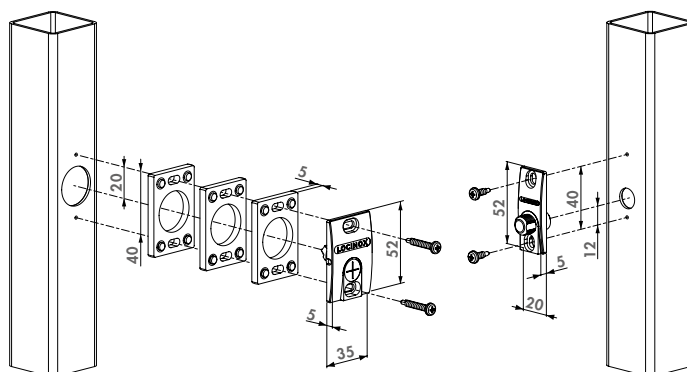

## Position detection set for gates - stand alone

### GATESWITCH

Multi-purpose position detection set, consisting out of a magnet and magnetic switch. This set can be easily connected to any electrical system like your access control or burglary system. The distance between the magnets can be easily changed by means of an adjustable magnet and included filler plates.

#### Specifications

- ✓ Possibility to activate led light when the sensor detects the magnet (requires 12V DC at the gate)
- ✓ Operates with Normally Open (N/O) or Normally Closed (N/C) contacts
- ✓ Required distance between the gate and the post is minimum 10 mm and maximum 50 mm
- ✓ Easy adjustment of distance between sensor and magnet by means of filling plates (fillers) and screwable magnet

#### Recommended power supplies

DC-POWER-12V-20W  
P. 46

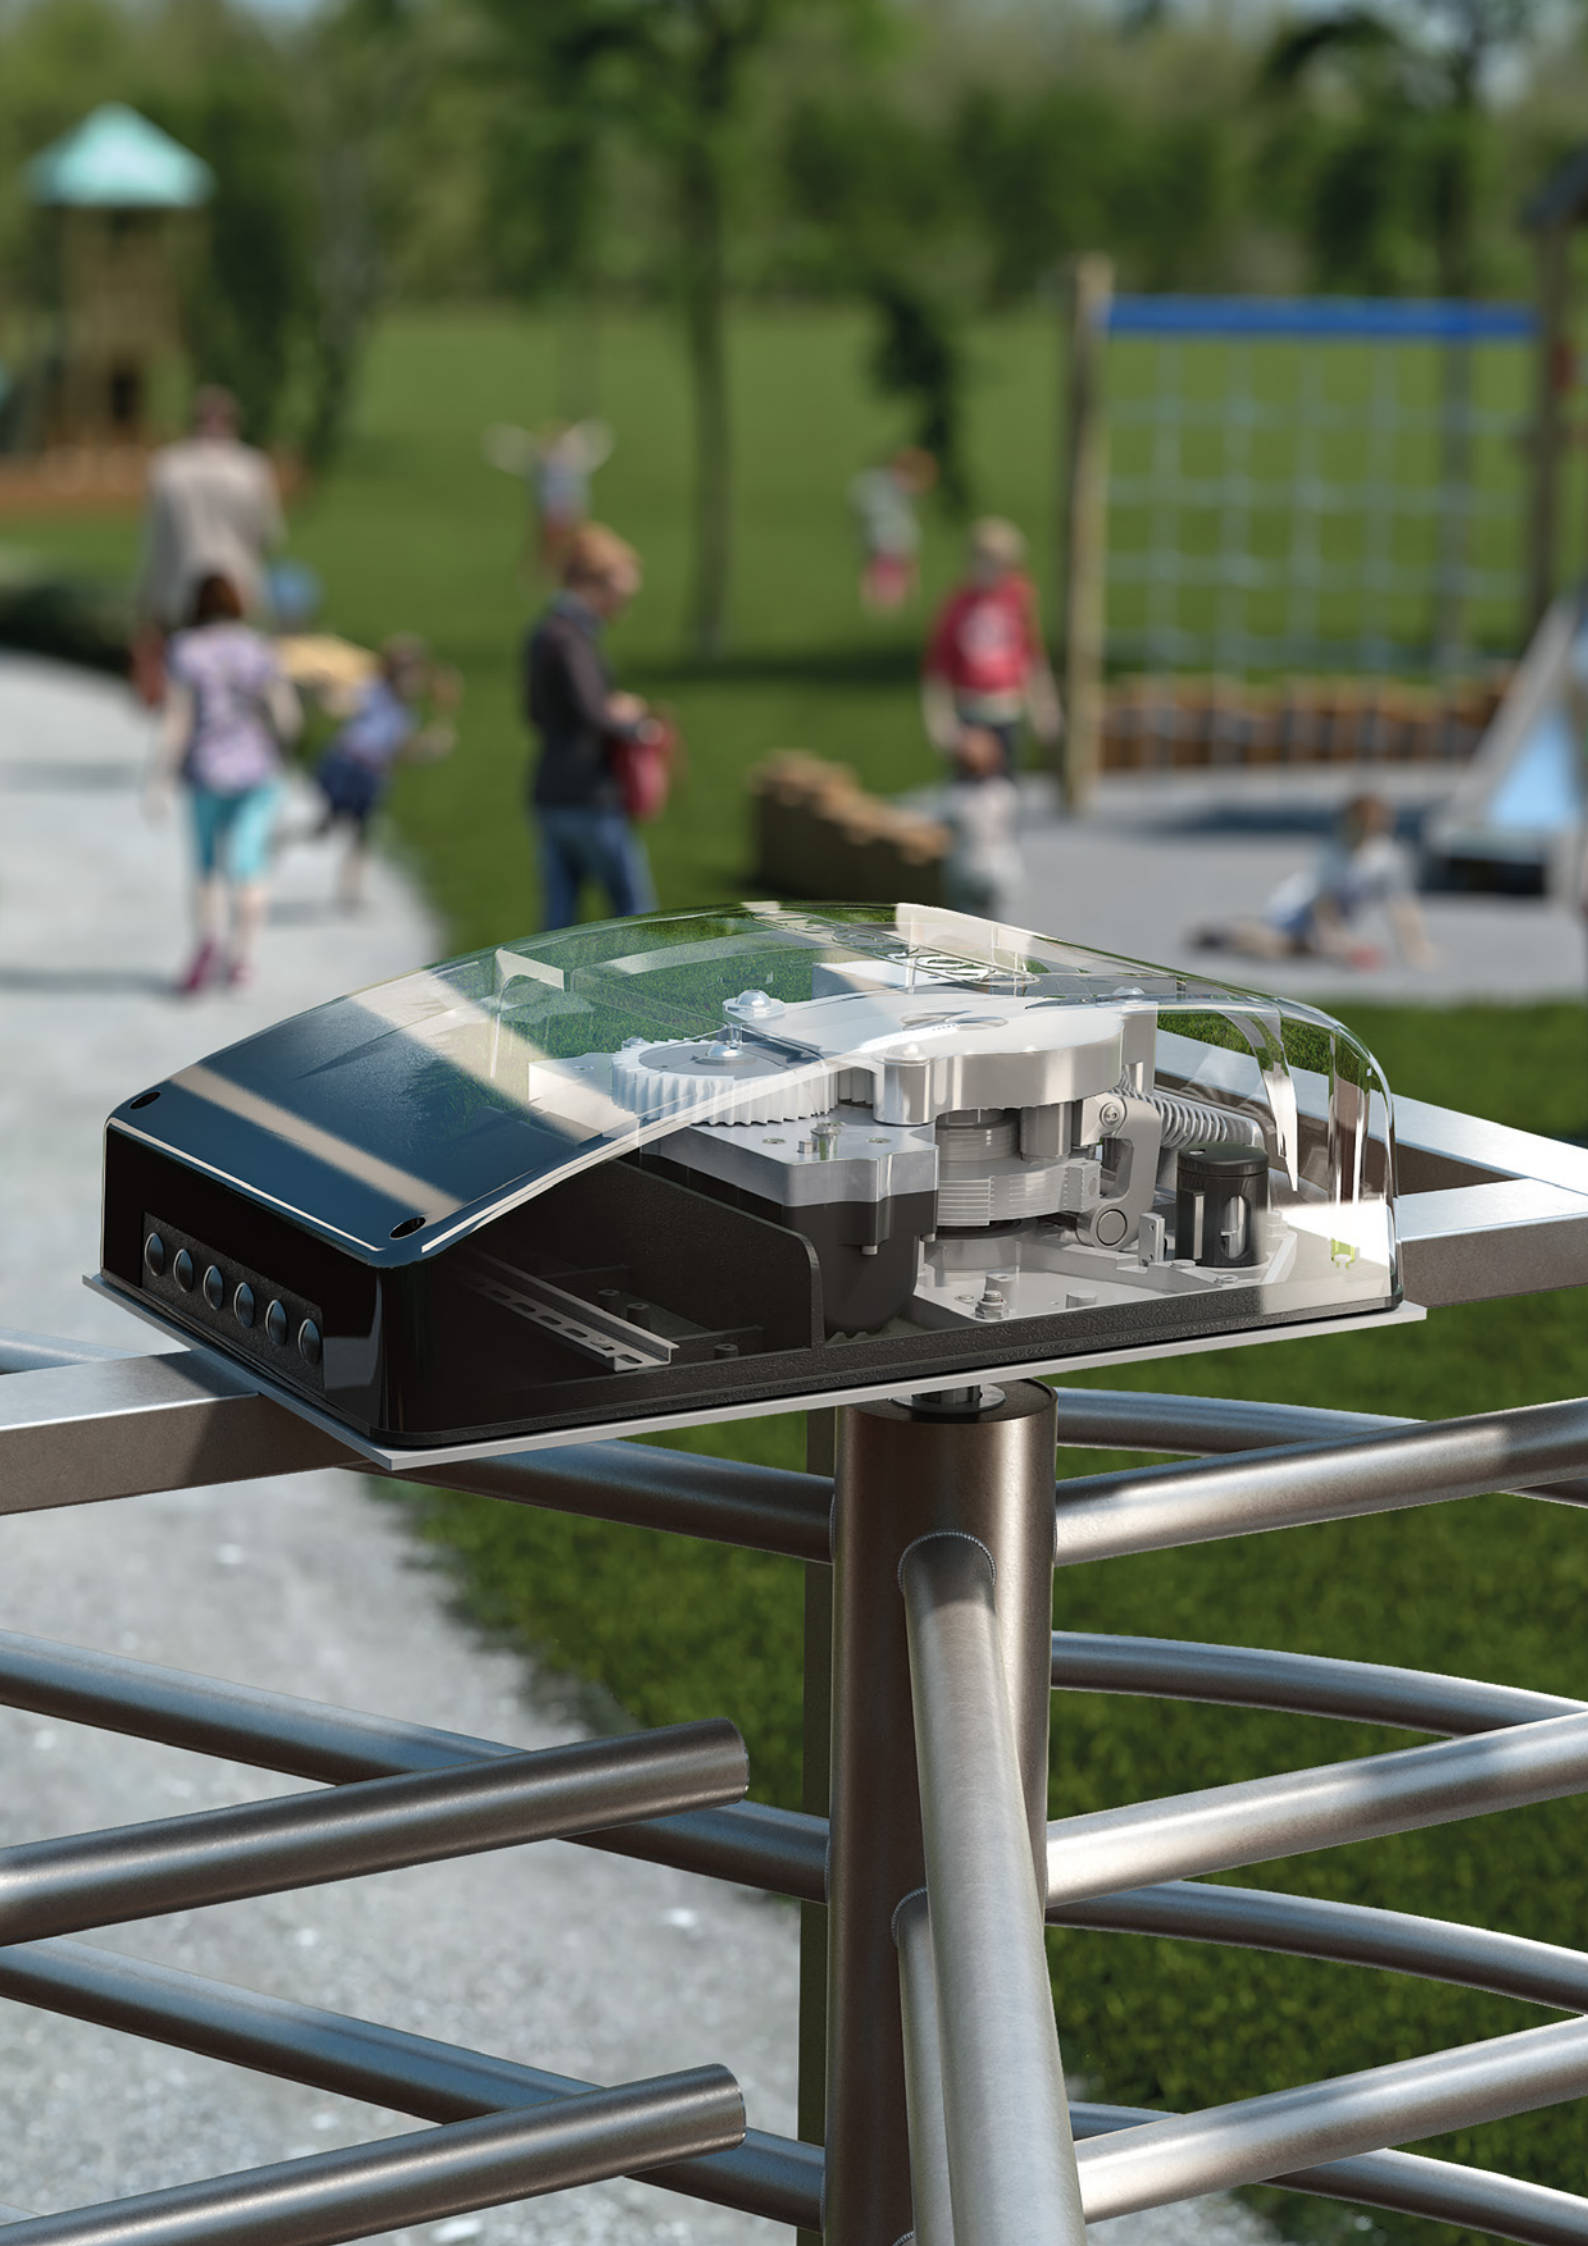

DC-ACCESS-12V-20W  
P. 46

#### Order code

**GATESWITCH** For gate situations with a min. gap of 10 mm and max. 50 mm between post and gate

# Turnstiles

---

The Locinox (electro)mechanical control unit allows you to easily create a maintenance free and high quality turnstile. You have an (electro)mechanical unit at your disposal with which you can match the design of your turnstile to the design of your fencing!

---

**50** Turnitec

**51** Access control modules

## Modular (electro)mechanical control unit for turnstiles

TURNITEC (Patented)

The Locinox (electro)mechanical control unit (3-arm 120° or 4-arm 90°) allows you to easily create a maintenance free and high quality turnstile. You can match the design of your turnstile to the design of your fencing! The Turnitec mechanism is applicable to any turnstile and a quick installation is guaranteed. Thanks to the 100% modular design you can adapt the mechanism to your customers' desires. A comfortable and safe operation is guaranteed by the optional damping system that is unaffected by temperature changes.

### Compatible Turnitec modules

TT-BM3S  
P. 51

TT-BSP  
P. 51

TT-DM3  
P. 51

TT-FO2  
P. 52

TT-FC2  
P. 52

TT-MM3S  
P. 52

TT-SAH  
P. 52

TT-PIVOT  
P. 52

TT-CL2  
P. 51

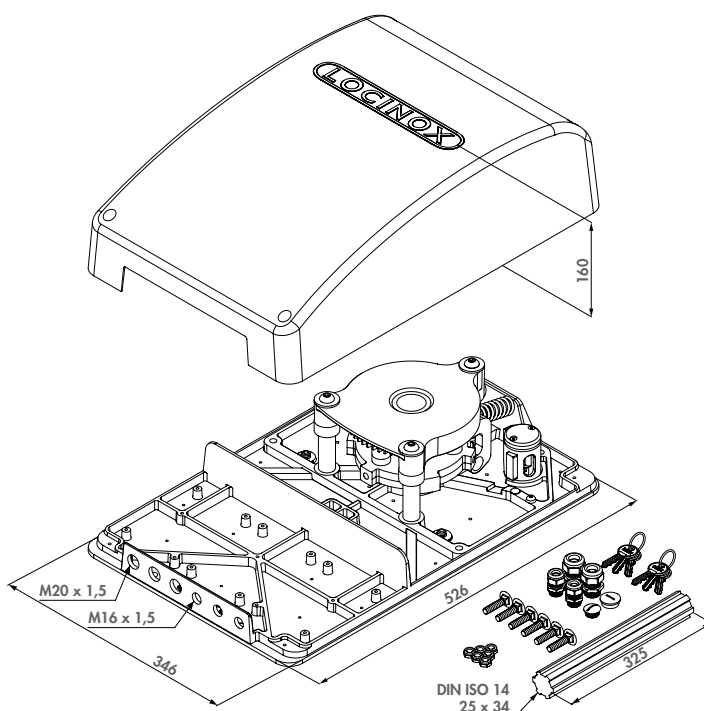

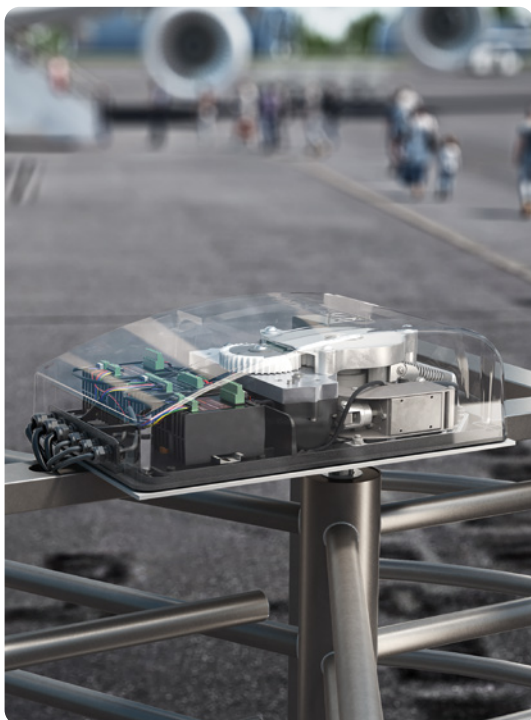

### Specifications

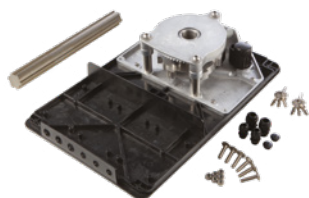

- ✓ 100% modular system: composition according customers' desires and expandable at any moment
- ✓ Available for 3-arm (120°) and 4-arm (90°) turnstile
- ✓ Optional interchangeable left/right mechanical or electromechanical modules (Fail Open or Fail Close)
- ✓ Automatic return to starting position (by means of industrial pressure springs) after every passage
- ✓ Anti-passback security (locking after a 60° or 45° rotation): prevents the simultaneous passing of 2 persons
- ✓ Very robust implementation and strong connection with the turnstile by a 34 mm diameter spline axle (length 325 mm)
- ✓ Manufactured completely in rust-proof parts (stainless steel and aluminium)
- ✓ Optional damping system guarantees smooth and gradual movements. Damping is continuous and unaffected by temperature changes (patented system)
- ✓ Possible to set signal duration
- ✓ IP55 housing protects the mechanism against water, dirt, wind, dust and vermin

### Order code

#### TTEC-BMS-FO2-FC2-DM-CL2

Full option Turnitec, Base mechanism + 1 Fail Open module + 1 Fail Close module + Hydraulic damper + 1 Counter & Light module

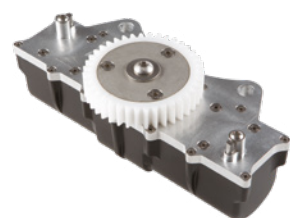

#### Order code

**TT-BM3S** Base mechanism 3-arm 550 x 350 x 170 mm

### TURNITEC base mechanism for 3-arm turnstile

TT-BM3S

With the TURNITEC base mechanism you can bi-directionally operate your turnstile free-turning. This 3-arm (120°) mechanism can be modularly expanded with the mechanical and electromechanical locking modules and a hydraulic damper to further finetune the access control and usability of your turnstile.

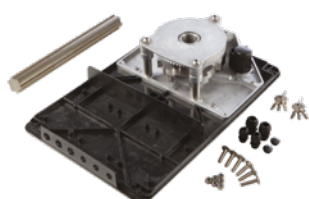

#### Order code

**TT-DM3** Hydraulic damping module for TT-BM3

### Hydraulic damper for TURNITEC for 3-arm turnstile

TT-DM3 (Patented)

Unique hydraulic damper for your TURNITEC mechanism. The first half of the rotation is undamped and the second half is damped progressively thanks to the continuous damping of the mechanism. This results in a fluent motion of the turnstile and avoids the turnstile hitting the users heels.

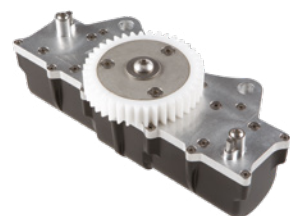

#### Order code

**TT-SM4S** Base mechanism 4-arm 550 x 350 x 170 mm

### TURNITEC base mechanism for 4-arm turnstile

TT-SM4S

With the TURNITEC base mechanism you can bi-directionally operate your turnstile free-turning. This 4-arm turnstile (90°) mechanism can be modularly expanded with the mechanical and electromechanical locking modules and a hydraulic damper to further fine-tune the access control and usability of your turnstile.

#### Order code

**TT-SDM4** Hydraulic damping module for TT-SM4S

### Hydraulic damper for TURNITEC for 4-arm turnstile

TT-SDM4 (Patented)

Unique hydraulic damper for your TURNITEC mechanism. The first half of the rotation is undamped and the second half is damped progressively thanks to the continuous damping of the mechanism. This results in a fluent motion of the turnstile and avoids the turnstile hitting the users heels.

#### Order code

**TT-CL2** Turnitec counter & passing lights module

### Counter & passing light signals module for TURNITEC

TT-CL2

Plug&Play module which enables connecting counters and passing light signals in both turning directions. A counter tells you how many people are on the terrain or how many rotations your turnstile made, while passing light signals guarantee a swift, safe and correct use of the turnstile.

#### Order code

**TT-BSP** Black steel welding plate 530 x 350 x 5 mm

### TURNITEC welding plate in black steel

TT-BSP

Welding plate for TURNITEC mechanism for a flawless installation of the TURNITEC on any turnstile. The punched drilling pattern and cut-outs for the cylinders ensure a fast and error-free installation.

## Fail Open electromodule for TURNITEC

TT-FO2

With the electromechanical module an operator has the ability to control incoming and outgoing traffic. Granting access or closing the system, changing the rotational direction and executing access control, all can be managed easily with the TURNITEC module.

### Order code

**TT-FO2** Fail-Open access control electromodule

## Fail Close electromodule for TURNITEC

TT-FC2

With the electromechanical module an operator has the ability to control incoming and outgoing traffic (granting access, changing the rotational direction and executing access control). After authorisation the turnstile is unlocked electronically and visitors have access to the terrain.

### Order code

**TT-FC2** Fail-Close access control electromodule

## Mechanical module for TURNITEC

TT-MM3S

This module for the TURNITEC mechanism offers the advantage of working completely mechanical. No power supply or cabling is needed. The release and locking of a direction of rotation is easy to set with a Europrofile cylinder lock. People can enter the terrain by pushing the turnstile arm.

### Order code

**TT-MM3S** Mechanical access control module

## Hub for seamless connection with turnstile

TT-SAH

Hub for seamless connection of the Turnitec base mechanism with the spline axle and the turnstile.

### Order code

**TT-SAH** Hub for seamless connection with turnstile

## Lower bearing and flange assembly for turnstiles

TT-PIVOT

Stainless steel bearing in a 17 mm thick aluminium baseplate. With bearings for a guaranteed smooth operation. Available with ball bearing or tapered roller bearing.

### Order codes

**TT-PIVOT-BB** Lower ball bearing and flange assembly for full height turnstiles

**TT-PIVOT-CC** Lower tapered roller bearing and flange assembly for full height turnstiles

# Locks

---

Locinox locks guarantee a well operating gate. Every lock is thoroughly tested excessively in our own test center where they are exposed to the most extreme circumstances. This ensures us that our locks will work in all weather conditions. We offer a variety of locks for garden gates, industrial gates or swimming pool gates. Locinox locks - the safest solution in fence protection.

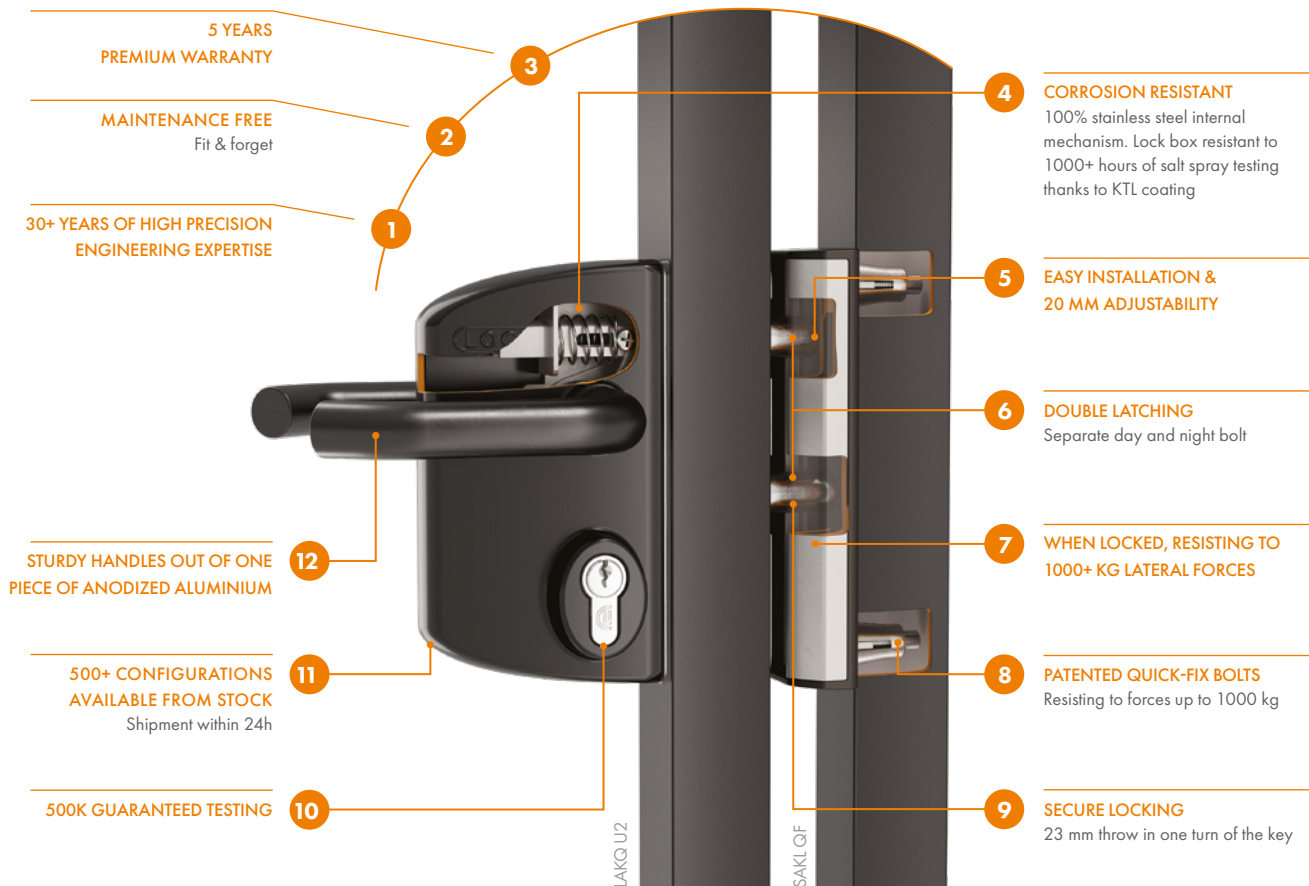

---

- 57** Locks for swing gates
- 73** Locks for child safety gates
- 79** Locks for sliding gates
- 82** Insert locks

# i Industrial quality and modularity

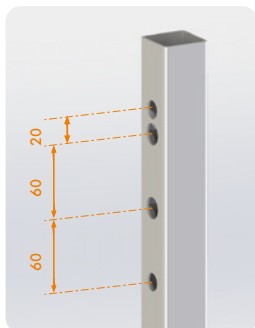

## It gets even better.

### Endless upgrades possible!

One drilling template for all our locks and keeps.

With this interchangeability, the Locinox lock gives you the opportunity to offer a solution for every situation.

#### 1 easy installation method for all our locks

#### ELECTRIC

Surface mounted electric gate lock with fail open or close functionality

#### PANIC LOCK

Surface mounted anti-panic lock for free exit

#### ORNAMENTAL

Surface mounted ornamental gate lock

#### DOUBLE CYLINDER

Surface mounted gate lock with 2 cylinders

#### CHILD SAFETY

Surface mounted gate lock with child proof security knob

#### PUSH HANDLE

Aluminium push handle set

#### CODE LOCK

Surface mounted mechanical code lock

#### PUSH BAR

Aluminium push bar for free exit

#### ELECTRIC CODE LOCK

Surface mounted electric gate lock

### Compatible with many keeps

#### SMKL

Polyamide garden gate keep

#### SHKL QF

Adjustable security keep out of stainless steel

#### MODULEC-SA

Surface mounted electric strike

#### MODULEC-SH

Surface mounted electric security keep

## Surface mounted gate lock

LAKQ U2 (Patented)

High quality gate lock with aluminium housing and stainless steel mechanism. We advise this lock as a standard for all your industrial gates. The 20 mm continuous adjustability of the bolts allows a perfect latching / locking of the mechanism. A solid stainless steel deadbolt with a 23 mm throw guarantees a secure locking. Standard supplied with anodized aluminium handle pair. For a fast and highly precise installation, we recommend using the Drill-Fix drilling jig.

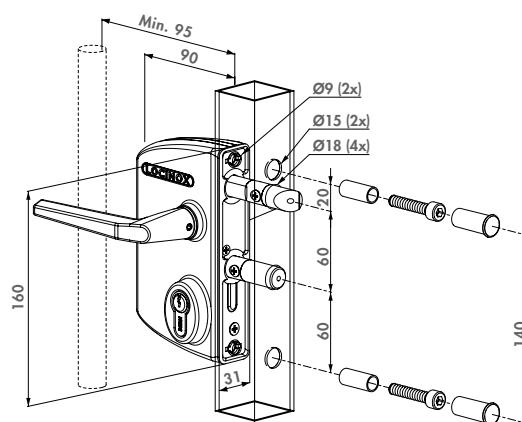

### Lock box color options

ZILV 6005 6009 7016 9005 9010

### Specifications

- ✓ ISO 9227 KTL / E-coated lock box withstands 1000 hours of salt spray test
- ✓ Easy left or right changing of the self-latching daybolt
- ✓ 23 mm throw of the dead bolt, in 1 turn of the key
- ✓ Key-operated self-latching bolt
- ✓ 4-hole fixing with two hexagon socket head screws
- ✓ 60 mm center distance of the bolts
- ✓ Continuous adjustment of the daybolt up to 20 mm without dismounting the lock box
- ✓ Stainless steel mechanism

## Surface mounted double cylinder gate lock for swing gates

LDZ D1

High-quality swing gate lock with aluminium housing and stainless steel mechanism with 2 cylinders. You only need to use 1 of the cylinders in order to open or to close the lock. This lock is ideal to provide entry to third parties like firemen or waste collectors. The double locking of the solid stainless steel night bolt ensures a secure closing. For a fast and highly precise installation, we recommend using the Drill-Fix drilling jig.

## Large surface mounted ornamental gate lock

LAKQ H2 (Patented)

Excellent ornamental lock with aluminium housing and stainless steel mechanism. We advise this lock as a standard for all your ornamental gates. The 20 mm continuous adjustability of the bolts allows a perfect alignment of your locking mechanism. A solid stainless steel deadbolt with a 23 mm throw guarantees a secure locking. Standard supplied with zamac ornamental handle pair. For a fast and highly precise installation, we recommend using the Drill-Fix drilling caliber.

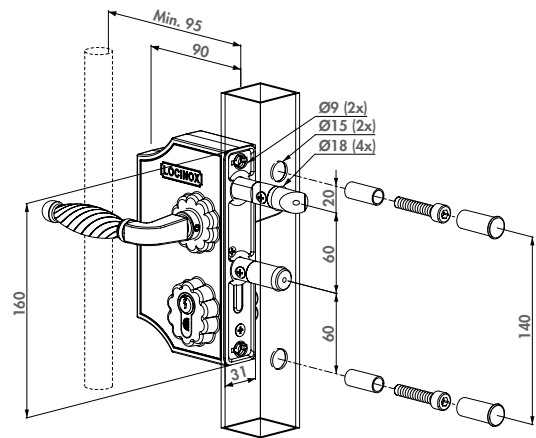

### Lock box color options

ZILV 6005 6009 7016 9005 9010

### Specifications

- ✓ ISO 9227 KTL / E-coated lock box withstands 1000 hours of salt spray test
- ✓ Easy left or right changing of the self-latching daybolt
- ✓ 23 mm throw of the dead bolt, in 1 turn of the key
- ✓ Continuous adjustment of the daybolt up to 20 mm without dismounting the lock box
- ✓ Key-operated self-latching bolt
- ✓ 4-hole fixing with two hexagon socket head screws
- ✓ 60 mm center distance of the bolts

## NEW Sleek & sturdy child safe magnetic latch for pools & parks

FORTiMa- (Patent pending)

The FortiMa is a magnetic child-safe gate latch that ensures safety and security because the handle is physically out of the reach of a child. FortiMa's patented internal leverage allows for smooth opening and, with its unmatched magnetic force, closes securely. The anodized aluminium and powder coated components make the FortiMa extremely sturdy. Installation is easy on a wide range of gate materials and being compatible with most international code requirements, the FortiMa can be rekeyed to match any existing lock.

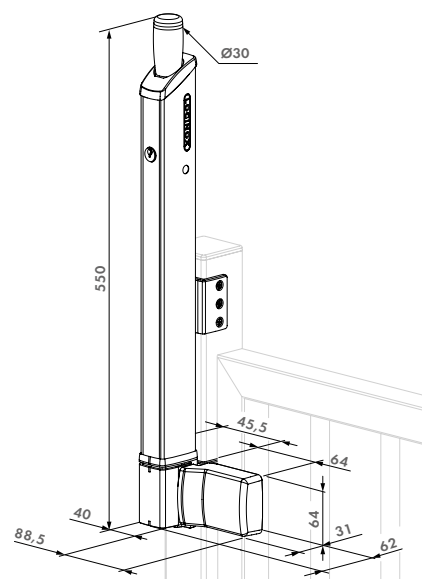

### Color options

9005

### Specifications

- ✓ Unique and extremely durable patented design with anodized aluminium housing
- ✓ Strongest magnetic force on the market: magnetic distance of 30 mm (2x industry standard!)
- ✓ Tested up to 2 million cycles - Limited Lifetime Warranty!
- ✓ Rekeyable to match any lock: Schlage-C Key-in-knob cylinder (5pin, drilled 6pin)
- ✓ Full vertical adjustability and 25 mm horizontal adjustability - a gap of 10 mm up to 45 mm
- ✓ Push down prevention: only opens when magnet is pulled up, adding additional security
- ✓ Perfect for metal, vinyl or wooden gates, available for round (R) and square (K) posts

### Compatible cylinders

## Sleek and sturdy child safe magnetic latch for pools and parks

GUARDIMA- (Patent pending)

The GuardiMa is a magnetic child-safe gate latch ensuring safety and security. GuardiMa is installed on the gate and its patented internal leverage allows for smooth opening and closing, thanks to its unmatched magnetic force. Thanks to the anodized aluminium and powder coated components, the GuardiMa adds elegance and value to your pool, park, playground or back yard. The lock is compatible with most international code requirements.

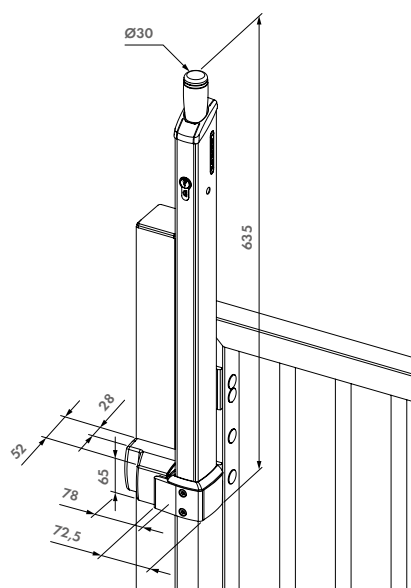

### Color options

**9005**

### Specifications

- ✓ Magnetic latch installed on the gate
- ✓ Extreme weather resistance in any climate
- ✓ Unique and extremely durable patented design with anodized aluminium housing
- ✓ Strongest magnetic force on the market: magnetic distance of 30 mm (2x industry standard!)
- ✓ Tested up to 2 million cycles
- ✓ Full 30 mm vertical adjustability and 30 mm horizontal adjustability - a gap of 15 mm up to 45 mm
- ✓ Push down prevention: only opens when magnet is pulled up, adding additional security

## LEONARDO

## Mechanical code lock for sliding gates

LLKZ V2 (Patented)

Mechanical code lock for sliding gates with aluminium housing and stainless steel mechanism. Since no electricity nor batteries are required, the mechanical code lock gives you the opportunity to equip any sliding gate fast and easily with access control. The unique Twistfinger and conforming auto-correcting keep guarantees a perfect closing of your sliding gate.

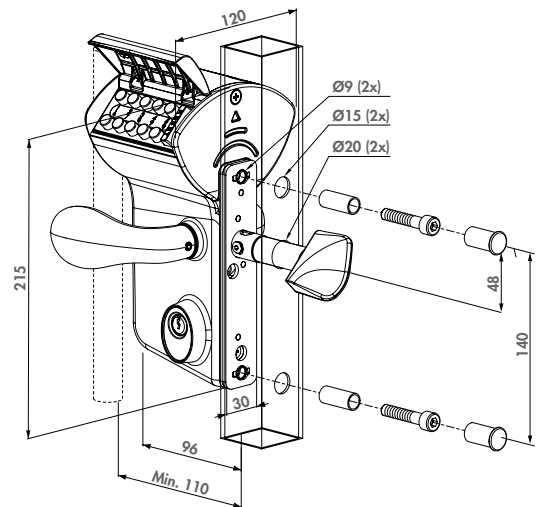

## Lock box color options

ZILV 6005 6009 7016 9005

## Specifications

- ✔ 100% mechanical: no battery nor electricity required
- ✔ Adjustable for horizontal or vertical mounting of the keep (catch bolt)
- ✔ Mechanical code panel on both sides
- ✔ Possibility to work with different entrance and exit codes
- ✔ Equipped with dust and rain covers
- ✔ Easy and fast set-up or modification of the access codes
- ✔ Possibility of setting up 4 to 6 digit codes
- ✔ Extremely strong and user-friendly mechanism
- ✔ Automatic code reset after pushing the handle
- ✔ Anti-code detection with integrated security press plate
- ✔ Stainless steel collar around the Twistfinger prevents cutting through the Twistfinger (catchbolt)

## Insert lock with 20 mm backset for profiles of 40 mm or more

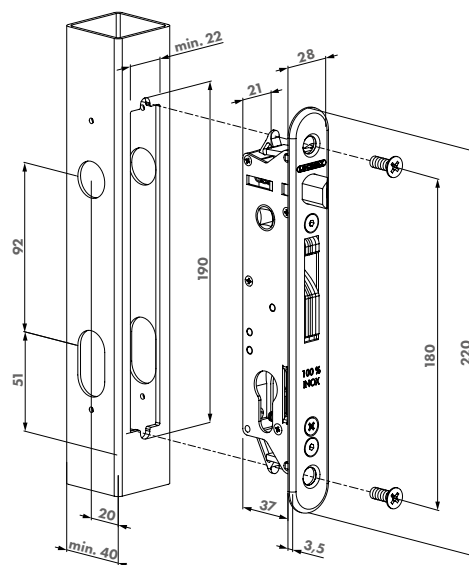

FORTYLOCK (Patented)

Insert lock with 100% stainless steel mechanism. The stainless steel adjustable self-latching bolt and hook combined with the right keep guarantee a strong and solid closed gate where the gate wings can not be pulled apart or forced open. The lock can be installed on metal, aluminium and PVC gates. Thanks to the patented "Click-It" system, installing the lock can be done in a matter of seconds.

### Specifications

- ✓ Lock mechanism with cover plate against dirt penetration
- ✓ Patented "Click-It" system makes thread tapping unnecessary
- ✓ Continuous adjustment of the daybolt up to 10 mm without dismounting the lock box
- ✓ Key-operated self-latching bolt
- ✓ Mechanism, hook, frontplate, latchbolt: stainless steel
- ✓ Easy left or right changing of the self-latching daybolt
- ✓ Throw of the hook: 21 mm
- ✓ Center-distance cylinder  $\leftrightarrow$  handles = 92 mm
- ✓ Optional: cover shield for handle & cylinder holes in aluminium, polyamide or stainless steel
- ✓ Handles to be ordered separately
- ✓ Compatible with all Europrofile cylinders

## Insert lock with 35 mm backset

H-METAL (Patented)

Insert lock made of high quality with 100% stainless steel mechanism. The massive stainless steel hook and adjustable latch bolt makes this a one of a kind lock. The combination of the hook (dead bolt) with the corresponding keep provides a secure anchoring of your gate. These locks can be used on metal or aluminium gates or with our fully prepared steel profiles.

### Specifications

- ✓ Easy left or right changing of the self-latching daybolt
- ✓ Key-operated self-latching bolt
- ✓ Adjustment of the latch bolt up to 20 mm continuous without dismantling the lock
- ✓ Mechanism, hook, frontplate, latchbolt: stainless steel
- ✓ Handles and cylinder to be ordered separately
- ✓ Throw of the hook: 33 mm
- ✓ Center-distance cylinder <=> handles = 92 mm
- ✓ Hook in combination with the Locinox keep provides a secure anchoring
- ✓ With coverplate for lock mechanism against dirt penetration
- ✓ Compatible with Europrofile cylinder
- ✓ Cover shield for handle & cylinder holes to be ordered separately

### Order code

## Handleless stainless steel insert lock with hook

H-COMPACT (Patented)

Quality 100% stainless steel insert lock with hook for a mechanical closure of (automated) sliding gates. The absence of handles prevents people from climbing over the fence with the handle as a step.

### Specifications

- ✓ Insert lock with a backset of 35 mm
- ✓ Suitable for swing and sliding gates
- ✓ Mechanism, hook, front plate, chassis and all internal mechanical parts are a 100% stainless steel
- ✓ Throw of the hook: 33 mm
- ✓ Hook in combination with the Locinox keep provides a secure anchoring
- ✓ Without self-latching bolt
- ✓ (Removable) pin prevents lifting the hook from the keep
- ✓ With coverplate for lock mechanism against dirt penetration
- ✓ Compatible with all Europrofile cylinders

### Recommended keep

### Order code

**H-COMPACT** For profiles with a min. depth of 60 mm

**SHKC**  
P. 108

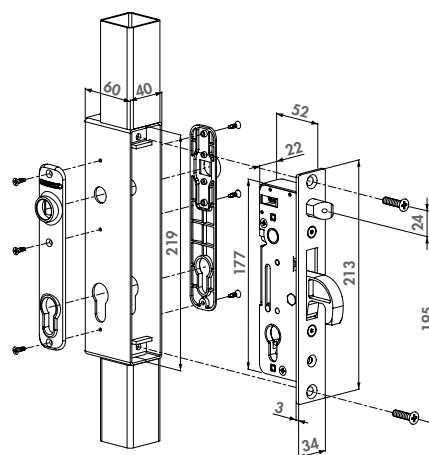

## Insert lock for welding box

H-METAL-WB (Patented)

Outstanding insert lock with 100% stainless steel mechanism. The massive stainless steel hook and adjustable self-latching bolt make this a one of a kind lock. The combination of the hook (dead bolt) with the corresponding keep provides a secure anchoring of your gate. These locks can be used on metal gates with our welding boxes.

### Specifications

- ✓ Insert lock with a backset of 35 mm
- ✓ Easy left or right changing of the self-latching daybolt
- ✓ Key-operated self-latching bolt
- ✓ Adjustment of the latch bolt up to 20 mm continuous without dismounting the lock
- ✓ Mechanism, hook, frontplate, latchbolt: stainless steel
- ✓ Throw of the hook: 33 mm
- ✓ Center-distance cylinder <=> handles = 92 mm
- ✓ Hook in combination with the Locinox keep provides a secure anchoring
- ✓ With coverplate for lock mechanism against dirt penetration
- ✓ Compatible with Europrofile cylinder
- ✓ Handles and cylinder to be ordered separately
- ✓ Cover shield for handle & cylinder holes to be ordered separately

# i Hardware for wooden gates

Wood is more popular than ever as a construction material in the gate and fence world. Wood lives and therefore it's important to know that **wood swells and shrinks** relative to weather changes. That is why here at Locinox we developed a **range of products for wooden gates** which make sure that your **gate always closes perfectly**, even after 10 years!

100% modular

Time-saving

Left/right reversible

## Single wing gate

### H-WOOD

100% stainless steel insert lock with a backset of 60 mm. The perfect solution for wooden gates. The adjustable self-latching bolt in combination with the stainless steel hook (dead bolt) provides an extra security.

### SHKW

Stainless steel keep for insert locks. This unique keep in combination with the lock ensures a strong gate anchoring. This configuration is with wood screws for wooden posts.

### MAMMOTH

An elegant self-closing hinge which opens smoothly and closes consistently gates up to 150 kg regardless of the outside temperatures (patented system). Closing speed and final snap are individually adjustable.

① SHKW: p. 109

② H-WOOD: p. 91

③ MAMMOTH: p. 16

④ DINO: p. 132

① 4DW: p. 135

② VSF: p. 146

③ SHKW: p. 109

④ H-WOOD: p. 91

## Double wing gate

### 4DW

Aesthetic, vandal proof hinge for wooden gates. The stainless steel hinge can be adjusted in 4 dimensions: height, depth, left/right alignment and rotational.

### VSF

Standard drop bolt with hot-dip galvanized bolt. The drop bolt is auto-locked between the gate wings.

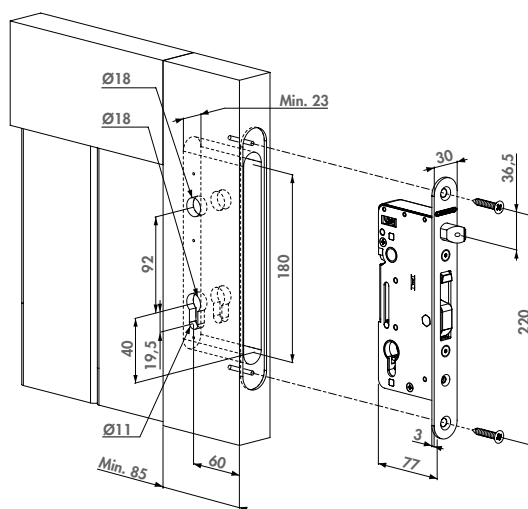

## Stainless steel insert lock for wooden gates

H-WOOD (Patented)

100% stainless steel insert lock with a backset of 60 mm. The perfect solution for wooden gates. The adjustable self-latching bolt in combination with the stainless steel hook (dead bolt) provides an extra security.

### Specifications

- ✓ Easy left or right changing of the self-latching daybolt
- ✓ Key-operated self-latching bolt
- ✓ Adjustment of the latch bolt up to 20 mm continuous without dismounting the lock
- ✓ Mechanism, hook, frontplate, latchbolt: stainless steel
- ✓ Stainless steel hook for secure anchoring
- ✓ Throw of the hook: 33 mm
- ✓ Center-distance cylinder  $\Leftrightarrow$  handles = 92 mm
- ✓ 60 mm backset
- ✓ Lock mechanism with cover plate against dirt penetration
- ✓ Compatible with all Europrofile cylinders
- ✓ Handles and cylinder to be ordered separately
- ✓ Cover shield for handle & cylinder holes to be ordered separately

### Order code

Insert lock

**H-WOOD** For profiles with a min. depth of 85 mm

## Complete, stainless steel insert lock set for wooden gates

H-WOOD-SET

Complete set to equip your wooden gates with an adjustable, stainless steel insert lock and keep. A safe anchoring of the gate is guaranteed.

### Specifications

- ✓ Complete set with lock, keep, cover plates, handles and cylinder
- ✓ 60 or 80 mm cylinder
- ✓ Stainless steel cover shields and handles

### Order codes

# Keeps

---

No lock without a keep. Locinox provides a wide range of keeps for sliding, swing, garden and child safety gates. An impact test at our facility ensures our keeps to handle every blow they receive and they meet our strict Locinox standard. Mounting is easy, fast and very strong thanks to our patented Quick-Fix system. The stop plates are adjustable and in many cases equipped with a protective rubber strip.

---

**94** Keeps for swing gate locks

**98** Keeps for child safety locks

**101** Keeps for sliding gate locks

**104** Keeps for insert locks

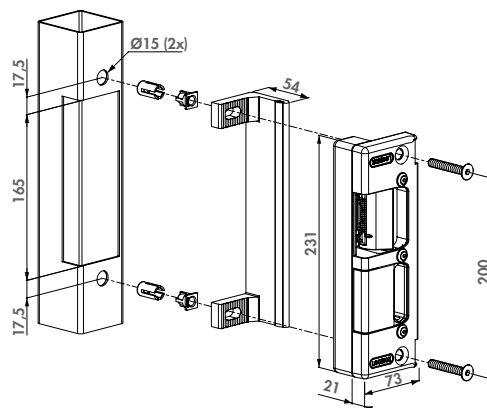

## Electric strike for surface mounted locks

SE (Patented)

Electric strike for swing gates. The strike is equipped with a blocking system that withstands 500 kg pulling force. The deadbolt receiver has been reinforced with stainless steel. This innovation makes the strike even more robust. This keep is extremely strong and the ideal solution for all your access control. SE is available in two versions: E (Emissa - Fail Close) and R (Ruptura - Fail Open).

### Specifications

- ✓ Type SE.E: Emissa - Fail Close
- ✓ Type SE.R: Ruptura - Fail Open
- ✓ Nightbolt receiver reinforced and out of stainless steel
- ✓ For post profiles of 50 mm and more
- ✓ Voltage: 12V AC/DC
- ✓ Current Emissa: 1A
- ✓ Current Ruptura: 1,5A
- ✓ Water resistant & weatherproof
- ✓ Pressure resistance on self-latching bolt: 500 kg

### Compatible locks

### Order codes

- SE-E** Electric strike, Emissa, Fail Close
- SE-R** Electric strike, Ruptura, Fail Open

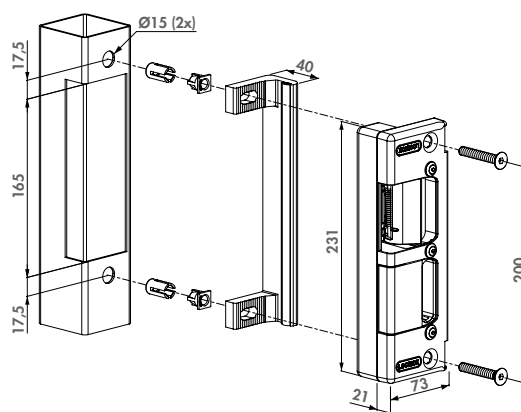

## Electric strike for insert locks

SEH (Patented)

Electric strike for H-Metal and H-Wood. The strike is equipped with a blocking system that withstands 500 kg pulling force. This keep is extremely strong and the ideal solution for all your access control. SEH is available in two versions: E (Emissa - Fail Close) and R (Ruptura - Fail Open).

### Specifications

- ✓ Type SEH.E: Emissa - Fail Close
- ✓ Type SEH.R: Ruptura - Fail Open
- ✓ Easy left or right changing
- ✓ For post profiles of 50 mm and more
- ✓ Voltage: 12V AC/DC
- ✓ Current Emissa: 1A
- ✓ Current Ruptura: 1,5A
- ✓ Water resistant & weatherproof
- ✓ Pressure resistance on self-latching bolt: 500 kg

### Compatible locks

### Order codes

- SEH-E** Electric strike, Emissa, Fail Close for H-Metal and H-Wood
- SEH-R** Electric strike, Ruptura, Fail Open for H-Metal and H-Wood

## Surface mounted electric strike

MODULEC-SA (Patented)

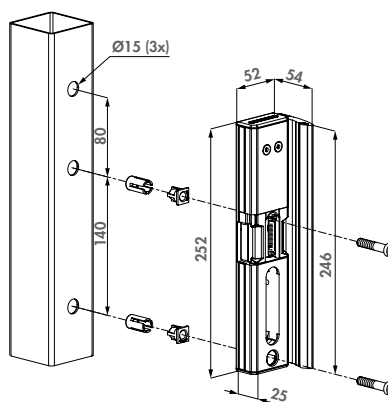

Easy-to-install electric strike for surface-mounting thanks to the patented Quick-Fix. Easily interchangeable with the SA keep. Can be connected to both 12V - 24V and AC/DC. Modulec-SA is available in two versions: E (Emissa - Fail Close) and R (Ruptura - Fail Open).

### Stop plate color options

ALUM 6005 7016 9005

### Specifications

- ✓ Tested up to 500.000 movements
- ✓ Fast and easy fixing with Quick-Fix
- ✓ Resistance to pressure on the latch bolt: 300 kg
- ✓ Same drilling pattern as SA, SH and SM keeps
- ✓ Easy left or right changing
- ✓ Corrosion-resistant: black anodized aluminium housing
- ✓ Adjustable for gate profiles: 40-60 mm depth
- ✓ Voltage: 12V-24V AC/DC
- ✓ Consumption: 12V - 1,25A / 24V - 0,62A
- ✓ Power: 15W

### Compatible locks

### Order code

**MODULEC-SA-E** Fail Close for surface mounted gate locks, 12-24V AC/DC

**MODULEC-SA-R** Fail Open for surface mounted gate locks, 12-24V AC/DC

## Surface mounted electric security keep

MODULEC-SH (Patented)

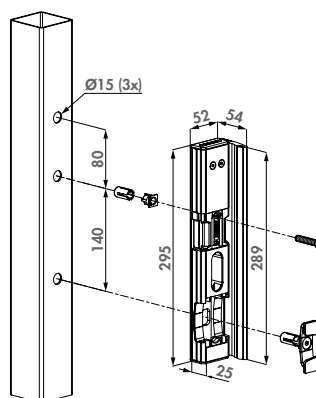

Replace your SHKL keep with an electrical surface mounted keep with Fail Close / Fail Open functionality. Easy to install thanks to the patented Quick-Fix. For 12V-24V and AC/DC. Modulec-SH is available in two versions: E (Emissa - Fail Close) and R (Ruptura - Fail Open).

# i Minimal distances

Perfect work begins with a perfect preparation!

All Locinox products can be adjusted accurately. We recommend however to consider the mounting depth when planning. Below, you will find a clear overview of the minimum distances between gate and post. This guarantees that all is perfectly aligned.

## Stainless steel surface mounted keep for surface mounted locks

SF-

Aesthetical surface mounted keep. Specially designed for our complete range of surface mounted swing gate locks. The limited 8 mm visible thickness ensures a discreet look. A highly efficient assembly with minimal gate preparations is guaranteed, while the unique Quick-Fix ensures a fast and strong fixation on the gate. This unique keep in combination with the gate lock ensures a strong gate anchoring.

### Specifications

- ✓ Stainless steel keep for square profiles as of 40 mm
- ✓ Compatible with our complete range of surface mounted swing gate locks
- ✓ Extruded stop plate in aluminium with rubber strip for longterm use
- ✓ Including innovative Quick-Fix fixations and self drilling screws
- ✓ Easy left or right changing
- ✓ Elegant design: visible thickness of 8 mm
- ✓ Adjustable stop plate for 40 mm till 60 mm gate frames
- ✓ Adjustable guide to avoid damage of day bolt to post

### Compatible locks

### Order code

**SF-** Stainless steel surface mounted keep for surface mounted locks, adjustable for 40 mm to 60 mm gate frames

## Pull Counter Box

3006PC

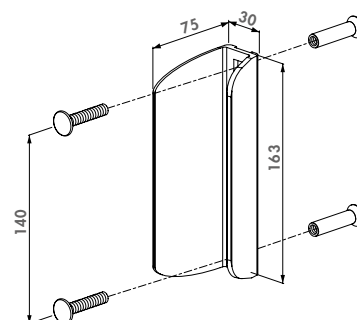

Aesthetic solution in aluminium for the construction of symmetric double swing gates in combination with the Locinox keep. When used with the Locinox 4D-hinges, you can simplify your production of double gates to one single identical gate wing which can be used either on the left or right side. The pull counter box fills up the symmetric lock opening in the other gate wing.

### Color options

ZILV 6005 6009 7016 9005

### Specifications

- ✓ Folded pull counter box with same shape as the industrial lock
- ✓ To use in combination with the SA or the SH keep with the special through and through fixing

### Compatible locks

### Order code

**3006PC** Folded counter box in aluminium with through and through fixing

## Ornamental keep

SPKZ QF

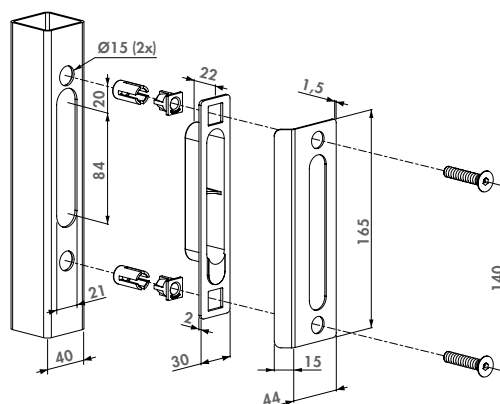

Flat keep with polyamide box to integrate into the post. This set allows you to adjust your (ornamental) gates with a minimal gap.

### Color options
